

BFT850D Flaring Tool with Drill Feature

BLACKMAX®

BlackMax Drill Powered Flaring Tools contain all the features of our manually operated flaring tools, but also provide a convenient, cordless drill attachment that dramatically reduces the time needed to form precise flares on soft copper or aluminium tubing.

Made of cast and precision machined aluminium, plus select components from rugged steel, BlackMax Flaring tools offer a premium look with a premium finish in a lightweight, compact, professional, patented design.

Internal clutch indicates when formed flare is complete

Seven quick-change positions for flaring soft copper and aluminium tube

Eccentric cone forms precise 45° flared ends

Imperial tool for 3/16", 1/4" 5/16", 3/8", 1/2", 5/8", 3/4" O.D.

Built in slide gauge for tube height adjustment

Product name	BFT850D Flaring Tool with Drill Feature
Part number	EVFS1204
